236 Richelieu, Québec
Québec G1R 1J6

Membership recruitment Information

- **Category A:** The member of this category actively participates in developing our ecosystem and takes part in transforming the national and international maritime industry. This member signs a renewable framework cooperation agreement setting out the respective general expectations of the parties and the obligation to pursue projects of common interest that are the subject of specific collaboration agreements later. This category gives the right to vote at the General Assembly and access to all the services of the IMC IC. Also associated with this category is an Organization or Corporation that contributes \$25K or more.
- **Category B:** The member of this category does not sign a framework agreement for collaboration but strongly encourages the development of the ecosystem. This category does not give the right to vote but does enjoy certain advantages.

The annual fee schedule:

A member's annual contribution depends on the size and type of their organization:

Corporations		Organizations		Organizations	
< 10 employees	\$1K	Associations	\$5K	NPO	\$0K
Between 11 and 25	\$5K	Academies	\$5K	Incubators	\$0K
Between 26 and 50	\$10K	Municipalities	\$10K	Accelerators	\$0K
Between 51 and 100	\$15K	Governments	\$10K	Volunteers	\$0K
> 100 employees	\$25K				

The annual contribution requested is \$0K for organizations or individuals when invited by the IMC IC. An NPO can be considered, after analysis, as an industrial cluster association (Associations) whose objective is to pursue specific lobbying activities.

- **The benefits of becoming a member:**

Benefits	Category A	Category B
Eligibility for votes at the General Assembly	X	
A dynamic team to support your projects	X	
Effective Representation to Government and Industry	X	
Full access to the collaborative portal and participation in priority projects	X	
Access to the Observatory's business intelligence publications *	X	
Access to IMC IC internal publications: analyses, action plans, etc.	X	
Displaying your company logo	X	X
Access to IMC IC I external publications	X	X
Access to IMC IC blogs and webinars	X	X

* The Observatory is an integral part of the IMC IC. Companies and organizations obligated to pay a minimum annual fee of \$1K have access to publications resulting from the Observatory's general strategic monitoring. Category A member organizations that do not have a contribution obligation (\$0K) must pay a minimum annual contribution of \$1K to access the Observatory's general business intelligence publications. Additional contributions will be requested by members who wish to use the Observatory's in-depth augmented strategic monitoring analyses with communication sessions according to a more organization-specific scoping choice.
