Issue 3: April 2026

The IMC IC held its Annual General Meeting of Members on March 17, 2026

The IMC IC is particularly pleased to have held its fourth AGM. Three concrete achievements in 2025 were brought to the members' attention. The IMC IC launched its website in July. From 6 to 10 October, the IMC IC undertook a second European mission of great interest for its positioning on the international scene. The Board of Directors and the Advisory Committee of the IMC IC jointly launched the work of a first Strategy Table on the theme of digital twins, under the leadership of Mr. Alain Godard, Director, with the close collaboration of Ms. Marie-Anne Lambert, new Director of the IMC IC. An executive summary will be published shortly on the IMC IC website. A second strategic table will be set in motion in 2026 on marine autonomous surface ships (MASS) and remote control centers (ROC).

The IMC IC continued its collaboration with CILTNA on 18 and 19 March, 2026

The IMC IC was proud to continue its collaboration with the Chartered Institute of Logistics and Transportation (CILTNA) and Transport Canada (TC) on the transportation of goods. The CILTNA annual workshop with TC has been in place for several years. Once again, this year, Mr. Donald Roussel and Mr. Louis-Paul Tardif, respectively President and member of the IMC IC, had the honor of participating. Mr. Roussel facilitated the entire workshop and had the privilege of presenting the IMC IC and maritime affairs in detail. Mr. Tardif gave a presentation on trucking. The challenges of regulation, the acceleration of digital transformation and innovation, and the future of the air and rail sectors were also addressed by all the invited experts.

The IMC IC participated in the ASL luncheon conference on March 20, 2026

The IMC IC was present at the ASL luncheon conference dedicated to the potential of short sea shipping. Mr. Serge Le Guellec, Strategic Advisor and Director on the Board of Directors of the IMC IC, was invited as a panelist. Mr. Donald Roussel, President of the IMC IC, was also present. The exchanges were fruitful, and several follow-ups of interest emerged following this meeting.
